## Welcome to 2idiots.com web site.

We can design a site for you with a variety of templates for either your personal use or for your business.

- A High-quality design from different templates
- Up to a 10 page web site or even larger if needed
- Supply emails for your new website
- [http://\(your\\_domain\\_name\).com](http://(your_domain_name).com) **not** <http://popularsite.com/yourname.com>
- Lots of tips and help if you already have your domain setup
- Layout displays correctly in all major Browsers
- [Shopping cart service for selling products](#) View a [Live](#) site here.

We can offer many types of web services tailored just for you so that you can reach customers. If you need a shopping cart to sell your products on your website and/or need to collect from items sold then we can set up so you can take credit card payments from your website.

If you need a new Website for your business or just for your personal use, then we can help. We can customize a Website for your use, supply you with email access and provide any updating service that you may need. Maybe you just need a Domain Name or just need help to show **you** how to do the setups.

If you currently have a "Brick and Mortar" store and wish to reach a broader customer base then a Website will help.

If you are a Church and wish to branch out to reach a wider audience, then consider a Web presence.

We will put together a site and supply all pieces of the puzzle in most cases for a yearly fee with a Domain Name and E-mail addresses included.

We can supply a **shopping cart** for e-commerce and set you up to accept credit card payments or accept them thru **Pay pal** service.

Just click on the [form](#), fill out and submit and we will get back to you shortly.

Pricing will be very reasonable and we will tell you what **TOTAL** cost is before work is done.

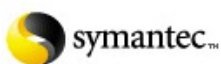

We will work with you until you are satisfied.
